New Norfolk Industry to Keep

Summer Delicacy in
Midwinter.

[Special to The Times-Dispatch.]

NORFOLK, VA., February 10.—The
Eustis Smelting Works, at Port Nor-
folk, has doubled its capacity, and
will employ a half-hundred iron and
copper workers, handling Cuban ore,
to be imported here in large quantities,
to be prepared for the market. The
Dutch steamer Tromp, Captain Wood
commanding, arrived at the plant with
the first cargo of the crude ore from
Santiago, Cuba, where it is being
mined in large quantities. The cargo
consists of 4,500 tons. The capacity
of the plant is now 450 tons of ore
per day.

The cargo of ore per month will
be necessary to keep the plant in op-
eration, and arrangements have been
made to secure the necessary steamers.
The Tromp will continue regularly in
the service, and another steamer will
be utilized in the service of the smelt-
ing plant. It is a new industry for
Norfolk, and one that it is declared
can be easily developed into a big
enterprise. With ample rail and water
facilities, the port is looked on as an
ideal one for handling crude ore and
preparing it for further refining where
it is used. Copper is to be the main
ore handled.

The smelting plant is controlled by
Northern capitalists.

Crabs in Off-Season.

Fresh crabs are a rarity on the table
in the winter months, and crabs that
are fat and wholesome, but that is
what the residents of Cape Henry and
Virginia Beach have been enjoying dur-
ing the past week or ten days. Quar-
tities of crabs, humped, but alive and
in excellent condition, have been washed
ashore recently, and have been
gathered for table use. A number of
farmers gathered the crabs for market,
and they are selling at a price of five
cents per pound. At this season of the year, one man
is reported to have gathered thirty-six
barrels last week. It is not uncommon
during cold weather for the benumbed
crabs to be washed ashore by the
heavy surf running in cold weather.

NEURALGIA AND SCIATICA

Why External Applications Will
Not Give Permanent Relief
and How Dr. Williams'
Pink Pills Cure
These Troubles.

Lack of blood is almost always asso-
ciated with neuralgia. One medical
authority has defined neuralgia as "the
irregularity of the nerves for better blood."
This is true because the nerves receive
their nourishment through the blood.
Build up the blood, the impoverished
nerves are fed and the neuralgic pains
disappear.

This is seen of how little perma-
nent benefit a local or external ap-
plication can be in the treatment of
neuralgia or sciatica, which is a form of
neuralgia. It also shows how exactly
suited to the cure of neuralgia and
sciatica is such a remedy as Dr. Wil-
liams' Pink Pills, which acts BOTH on
the blood and the nerves. Beside their
direct action on the nerves, which
affords temporary relief from the sci-
atic pains, these pills build up the
blood, enable it to give proper nourish-
ment to the nerves, and prevent the
further development of the disease or
a return of it, so long as the blood is
kept rich and red.

Mrs. George Henderson, whose ad-
dress is R. F. D. No. 1, Wynantskill,
Rensselaer Co., New York, says:

"A few years ago I suffered my left
hip by a fall, with rheumatism, and
for nearly a year with sciatic rheuma-
tism. The pains ran from my left hip
down to my heel, and were so terrible
that I had to scream when trying to
walk."

"My doctor didn't do me a bit of
good, and I told him I was going to
try Dr. Williams' Pink Pills. The pills
brought me up from the start, and
within a month's time I could walk
some and without pain. I took the
pills for a while longer to make sure
of a permanent cure, and have never
troubled with rheumatism since. I
can now work as well as any one."

The great value of Dr. Williams' Pink
Pills lies in the fact that they actually
make new blood, and this carries
health and strength to every portion
of the body. The stomach is toned up,
the nerves are strengthened, and every
organ is stimulated to do its work.

sented to the General Assembly, emen-
ding Pittsylvania to have an election on

BACK TO KENNESAW ROUTE.

Old Schedule Resumed Since Southern
Abandoned Fast Train.

[Special to The Times-Dispatch.]

BRISTOL, VA., February 10.—What
was many years ago known as the
"Kennesaw route" for mail between
Washington and the Southwest has
just been re-established. This is the
result of the abandonment by the
Southern Railway of its fast service
between New York, Philadelphia and
Baltimore.

The mail for the Southwest is now
being routed by way of the Norfolk
and Western to Bristol, and thence
south over the Southern. The first
consignment of this mail arrived here
Sunday. Sixty-foot steel-frame cars
were used, and each car will be
manned by seven to eight postal
clerks. The route by way of Bristol
is fifty-one miles shorter than the
route which has been abandoned.

NO SKATING ON SIDEWALKS

An Ordinance Passed Imposing
Penalties for So Doing—Work-
ing for Better Highways.

[Special to The Times-Dispatch.]

PETERSBURG, VA., February 10.—
The Board of Aldermen this evening
concurred in all measures coming from
the Common Council, including the
resolution recommended by the Com-
mittee on Charter and Reforms, re-
questing Petersburg's representatives
in the Legislature to secure the pas-
sage of a law empowering the city
to make appropriation for the build-
ing of armories for its militia, com-
panies and a hall for public assem-
blies.

When reported to the Council this
measure was embodied in the commit-
tee report recommending that the same
action be taken to empower the city
to create a Board of Control, which
proposition was overwhelmingly de-
feated in the Council. The Board con-
curred in the resolution providing an
increase of \$100 in the salary of the
Commissioner of the Revenue, Captain
Hugh R. Smith.

The Council ordinance prohibiting
roller-skating on sidewalks in Peters-
burg, under penalty of a fine of not
less than \$2.50 nor more than \$5, pro-
voked a warm discussion, and was
strenuously opposed by Alderman
Moore, but was passed by a vote of 10
to 2.

of the best ways and means to improve
the road, and ultimately secure a ma-

with the county authorities, and do all
in its power to push the work. Chair-
man, Mayor Joel H. Catching, has ap-
pointed Howard James, C. E. Lan-

meeting, which adjourned to meet at
the call of the chairman.

SHOWS WONDERFUL VITALITY.

Rallied Well From Remarkable Oper-
ation, But Condition Serious.

[Special to The Times-Dispatch.]

CHARLOTTESVILLE, VA., February
10.—The remarkable vitality of Dorsey
Tyler, the young man who was shot
and dangerously wounded on January
22d by R. Lawson Sexton, Chesapeake
and Ohio agent and telegraph oper-
ator at Augusta Springs, is the wonder
of his relatives and friends.

Over ten days he has operated upon
at the University Hospital by Dr.
Stephen H. Watts, professor of general
surgery and director of the hospital.
The spinal canal was opened and the
ball, and a fragment of the bullet, were
found in the middle of the spinal cord,
which had been entirely divided. The
wound was surrounded by an abscess, due
to the fact that a piece of the young
man's clothing had been carried along
with the ball, and lay by its side. The
presence of the abscess greatly com-
plicated the case. The patient rallied
well from the operation, but the outlook
is very grave.

ALEXANDRIA, VA., February 10.—
The George Washington Monument As-
sociation, composed of the leading citi-
zens of Alexandria, which was or-
ganized some time ago, has perfected
a plan which, it is believed, will carry
out its purpose. One hundred citizens
have subscribed \$200 each to purchase
Shooters Hill property of forty acres.
The plan is to donate one-half of this
for a public park, in the center of
which a monument of General Wash-
ington will be erected.

This bill would have been the loca-
tion of the United States Capitol had
the city been south of the Potomac,
and it is said to have been George
Washington's choice. It was strongly
fortified and used by the Union forces
during the Civil War. While it is
not at present within the Alexandria
city limits, being just over the line
of Fairfax county, it is generally be-
lieved that the city limits will be ex-
tended there in the near future.
